### SPLENDID SAMPLE OF FERTILITY

#### OF DISTRICT--BEST SHOW HELD

(By Bulletin Staff Reporter)

"Better than last year," was the verdict of those who attended the seventh annual fair of the Onoway Agricultural Society at Onoway last Wednesday. The society now has about 60 members.

Armitstead, J. Brown, J. Priestley, J. Waddell, A. Priestley, W. Scott, J. W. Smith, and 1st vice-president, H. A. Aleop, A. L. Mclerry; secretary-treasurer, A. A. Brown, Onoway.

**Alfalfa 40 Inches.**

There were 38 entries in the grain entries, including 10 entries of oats, 10 entries of wheat, 4 entries of rye, 40 entries of timothy, 10 entries of clover, 10 entries of rye, 40 entries.

There were 10 entries in the poultry show, chickens, geese and turkeys all represented. It showed a large number of entries in the poultry and a line of mixed farming.

Forty-eight and thirty household entries were made, including 10 entries of 42 jars of preserves, pickles and jams, 10 entries of 100 entries of the generation of the younger generation in the exhibit of cooking school entries.

The display of vegetables included many entries of carrots, turnips, and a very numerous collection of excellent entries of onions, 10 entries of 100 inches long, the pumpkins from 15 to 27 inches, and the entries of corn, tomatoes, and cucumbers suggested a great deal of interest in the cultivation of these vegetables which are in great demand.

**Co-operative Marketing.**

The local farmers have organized and are carrying on a co-operative marketing of live stock, grain, and vegetables. The tables of such excellent quality, they can co-operate with other parts of the Alberta district to help overcome the general shortage of food in certain parts of the country.

The live stock exhibit included 20 head of cattle, 100 entries of sheep, with a flock of 240 sheep offered, 10 entries of swine, 10 entries of hogs, and the car show was several entries pure bred animals and the grades among the entries were excellent, due to the improvement of quality in the pens.

In the pens there were two very fine entries, one now having a value of \$1000, and another a value of \$1200. The youngest were impotent for the next few years.

The ranges of the coyote and the fox were the chief reason of the low bidding that preceded the sale of stock at the fair, but the loss of sheep at the fair was larger than in former years, and the price of the stock will be more plentiful in this district.

The Onoway branch of the Alberta Wheat Institute operates a branch here, and has a test plot on the grounds and surrounding hills.

The wheat, oats, and barley, were all sown with Mrs. Crafts as president and Mrs. Armitstead as vice-president.

Among the visitors noticed at the fair were Mr. and Mrs. J. A. O'Neil, from Rivers Qu'Barre, District Agent, Mclntyre from Stoney Plain, Mr. and Mrs. J. C. Armitstead, the Canadian Bank of Commerce.

Another auto. from Stoney Plain, Mr. and Mrs. J. A. O'Neil, had arrived and Onoway had that they decided to return home via Edmonton.

At the fair there was a display of the good quality of the swine exhibit. The bacon hogs and the test for dairies

gain were features for special praise.

The tomatoes, Dr. Shaw's ripe tomatoes, deserve special mention, as they are the first can be grown in the north country. The grounds are south of town, a very nice place, with a large track, pavilion, grand stand, and judge's box. The fair was opened and a large crowd was in attendance. There were many auto and bicycle races, auto racing and bucking contests. A baseball game between the married and single men was also arranged, in which the latter won by two runs.

cially tame bears in town, a seven-  
year-old child, Mrs. H. H. Robins, was severely mauled by a bear owned by Mr. Wm. McNamee, who was on Bear Creek Flats. The animal was chained at the time, and the child, who was in the neighborhood at the time, was eating an apple at the time. The bear grabbed the child by the hand and pulled him off his feet. The bear then bit the child's scalp which necessitated seventeen stitches. Mr. Higgin who is attending the child, said the bear was get-  
ting on very nicely.

It was announced that the Bea-

Are Higher Than Ex-  
pected

Peace River, Sept. 15.—This report is from the Peace River Agricultural Society, which has issued a circular to quick action to prevent the possibility of a recurrence under the first place. There will never again be such a house as the one that was destroyed. The firm that had the contract for supplying houses to the people here has given them a list of houses that have been given them already here. They have been given them to have the new ones here or to have them removed. In the meantime a tentative agreement has been made with the firm who guarantees immediate shipment.

In the second place, an iron-clad building has been passed, which is to be used for the threshing of grain or for a garage or for a house or for an automobile garage or other than a house. The house is to be built under the town hall and the garage under the river. This will then be accessible to any part of town.
